

CE 313 - Children's Ministry Internship

2 Credit Hours

A course designed to give the student "hands-on" experience. This course requires him or her to be placed in an intern relationship with a veteran children's pastor in a local church. Working under the supervision of that children's pastor, and still reporting to the course professor, the student structures his or her practicum around an assigned checklist of experiences which includes counseling, teaching, preaching, planning, visitation, and discipleship. While working through this checklist, the student is required to invest a minimum of 60 hours total.
