

GC 307 - Origins

3 Credit Hours

A course devoted to the study of origins from a literal-day perspective and to the place of creation in a biblical worldview. Students will examine the scriptural support and the scientific evidence of creation from such fields as chemistry, physics, biology, astronomy, genetics, and geology. Special topics in this course include the theory of evolution, the propositions of Intelligent Design, the Genesis Flood, and legal issues concerning the evolution/creation debate. Students also will find this course beneficial for their understanding in the area of biblical apologetics.
