

NM 402 - Management Information Systems

2 Credit Hours

A hands-on study of how technology is used to connect basic data with management needs. Emphasis is on the proper collection, structure, preservation, and reporting of organizational data for churches and other ministries. Students will learn the difference between spreadsheets and databases and how each are used to store, update, secure, and examine various forms of information. Special attention is given to Web 2.0 concepts and organizational intelligence.
