

CS 222 - C# Programming

3 Credit Hours

Development of computer and programming skills using the C# language. Students will learn how to use C# to develop stand-alone applications in an IDE. Advanced concepts, such as database connectivity and web applications will also be examined. Topics include C# applications, object-oriented code using inheritance and polymorphism, modular programming, and recognizing exceptions in the .NET environment.

Prerequisites

[CS 111](#)
